

UNC CFAR Social and Behavioral Science Research Core SABI Database

INSTRUMENT TITLE: *Coping Self-Efficacy Scale (CSE)*

SOURCE ARTICLE: Chesney, M. A., Neilands, T. B., Chambers, D. B., Taylor, J. M., & Folkman, S. (2006). A validity and reliability study of the coping self-efficacy scale. *British Journal of Health Psychology*, 11(Pt 3), 421.

SCALE ACCESS:

Drs. Chesney & Neilands request that individuals, research teams, etc. who are interested in using the scale please contact them directly. Dr. Chesney may be reached at Margaret.Chesney@uscf.edu. They are happy to share the scale and items with other researchers, and may also be able to assist with regards to scoring and analysis. There are multiple translations of this scale available for researchers around the world.

TERMS OF USE:

Individuals may use this information for research or educational purposes only and may not use this information for commercial purposes. When using this instrument, please cite:
