RESPONSE OPTIONS AND SURVEY ITEMS:

SECTION D

Now I'd like to talk with you about your recent sex life--things like who your partners were, and what you did with them. We'll be talking about some really personal things but remember: everything you tell me is confidential, and there are no right or wrong answers.

Before we get into the specifics, let's briefly go over the definitions of some terms that I'm going to be using, so that we're sure that we're using them in the same way. This may be helpful to you in answering the questions that I will be asking.

When I say:

I mean:

Vaginal Sex:

When a male inserts his penis into a female's vagina.

Receptive Anal Sex:

When a male puts his penis into your anus or butt.

Receptive oral sex:

When a male puts his penis into your mouth.

[For men only]

Insertive Anal Sex:

When you put your penis into the anus or butt of your partner.

OK. Do you have any questions? Remember, if at any time you are unsure about any of the terms that I use, please ask me about it. Are you ready?
