INSTRUMENT TITLE: Confidence in Safer Sex (CSS)

RESPONSE OPTIONS: Subjects were asked to rate their level of confidence in having safer sex on a 5-point Likert scale (1 = Not at all confident to 5 = very confident)

SURVEY ITEMS:
Sexual arousal
When I really want sex
When I am really sexually excited
When I am really sexually aroused

Substance use
When I am affected by alcohol or drugs
When I am a little drunk or high
When I am under the influence of alcohol or drugs

Partner pressure
When my partner pressures me to take a chance this time
When my partner gets annoyed about having safer sex
When my partner is insulted that I want safer sex

Negative affect
When I am upset
When I feel depressed
When I am feeling angry

Perceived low risk
When there’s not much risk
When the risk seems low
When I think the risk is small
